- Senate Presentation entitled: The California Online Community College: 115 Problems and an Academic Senate ain't one

Resolutions That Affect Noncredit

▶ **Redefine the Faculty Obligation Number to Include Noncredit Faculty**

▶ FON has at many colleges been treated as a maximum number of full-time faculty to be employed rather than as the minimum. Progress has not been achieved toward reaching the legislative goal of 75% of instruction by full-time faculty.

▶ With the implementation of AB705 many colleges are exploring an expansion of noncredit offerings but noncredit faculty not included in FON creating a disincentive to hiring or assigning full-time faculty in an area of significant student need.

Resolutions that Affect Noncredit

9.02   F18   Equalize Noncredit Curriculum Processes to Align with Local Approval of Credit Curriculum Processes

► Since October 2016, colleges can now self-certify curriculum for credit courses, modified credit programs with the exception of ADT, and new credit programs with a goal of local program with the exception of new career technical education credit programs and apprenticeship.

► Noncredit course approval process must be nimble enough to allow for colleges to increase in-demand noncredit course offerings.

► Recommend to work with Chancellor's Office and other stakeholders to equalize noncredit curriculum processes to align with local approval.
